Subject: Thought these might be of interest

Attachments: Today's.pdf; Tuesdays.pdf

There was a lot more information that warranted inclusion in Tuesday's IARC story, but insufficient time to confirm it all and too many words for my bosses anyhow. Similarly, there was far more that could have been said about the rodent tumor issue, but it was already too long. I hope both are okay—not great, I can't strive for that any more—but I hope accurate and a reasonable synopsis.
